

# The Third Annual Red Door Autism Conference

University College Dublin (UCD), 8th and 9th December 2008

“Evidence-based Interventions for individuals with autism  
across the lifespan”

A Conference for Parents, Tutors, Teachers and Professionals

## **The Red Door is hosting their third annual conference, bringing together some of the best-known experts in the field of Applied Behaviour Analysis (ABA).**

ABA Professionals from Ireland, Britain and America will present a wide range of subjects, based on their own huge wealth of experience and expertise. As in previous years, the conference will provide three simultaneous programs of presentations. There will also be a schedule of Case Studies, presented by Ireland's ABA schools, demonstrating the application of our science and its effectiveness with the students and clients with whom we work.

Over 300 people came to each of the first two year's conferences, and the organisers were delighted with the positive response from everyone who attended the various presentations and workshops, which concentrated specifically on imparting skills.

The conference is targeted primarily at parents and tutors, as well as professionals working with people with autism. It takes place in University College Dublin (Belfield), in the Health Sciences Building, on Monday 8<sup>th</sup> and Tuesday 9<sup>th</sup> December 2008. Costs are as follows:

- €150.00 for individual Parents and Tutors for both days
- €250.00 for Professionals
- €100.00 for individuals who are members of an IAA member-group

Thanks to the support of Irish Autism Action, the cost of attending both days of the conference is reduced to €100.00 for any individual who is a member of an IAA-member group.
